

FOR IMMEDIATE RELEASE

Kiepe Electric LLC Announces Rebranding to E-Trac Solutions LLC

Strategic Name Change Reflects Operational Autonomy and Re-Enforces Commitment to U.S. Transit Industry

Alpharetta – 8/01/2026 – Kiepe Electric LLC, a leading provider of transportation engineering and transit solutions for bus and rail, today announced it will operate under the new name E-Trac Solutions LLC, effective August 1st, 2026. The name change marks a new chapter while preserving the expertise and relationships that have defined the company's presence in the North American transit market.

Continuity and Commitment

"This name change means the next steps of our corporate evolution. Our focus and our commitment to the U.S. transit industry is stronger than ever," said Michele Molinari, Managing Director of E-Trac Solutions LLC. "Our clients will continue to work with the same dedicated team, receive the same high-quality service, and benefit from the same technical expertise they have trusted for years."

The rebranding affects only the company name. All personnel, including project managers and technical staff, remain in their current roles. Client relationships, ongoing projects, and service agreements continue without interruption.

E-Trac Solutions LLC will be operating independently from Kiepe Electric GmbH, Düsseldorf, Germany. E-Trac Solutions LLC and Kiepe Electric GmbH are and will remain separate legal and operating entities and will proceed working together in various projects.

About E-Trac Solutions LLC

E-Trac Solutions LLC (formerly Kiepe Electric LLC) specializes in e-mobility solutions for America's public transit systems with bus and rail services. E-Trac Solutions LLC delivers transformative, sustainable technologies that combines premium performance with reliable service, empowering cities to build a cleaner, smarter transportation future.

E-Trac Solutions LLC delivers custom-designed battery solutions and range extender for the trolleybus operations of King County in Seattle, San Francisco and Dayton. The company also delivers modern state-of-the-art rail propulsion systems for Chicago Transit Authority and battery charging systems for Los Angeles Metro.

The company maintains its commitment to advancing sustainable, efficient public transportation solutions that connect communities and support urban development.
